Another year has come and gone and the **Central Florida Metal Detecting Club** has a lot of which to be proud. Looking back we can see how we have come together as an active group of hobbyists who are working together as a team to build the best club in the entire South East. As we continue to uphold the traditions upon which the club was founded, we set the example for others to follow. But the secret to our success is simple; we respect our God, our country, and each other.

Our focus on new members has resulted in a club roster of members which numbers nearly 100. Our numbers continue to grow as we all watched in November when 13 first time guests attended and more than half of them became new members within the week.

In order to help answer some of the questions for the newer members, I'd like to request that experienced members bring their machines with them to the meetings just in case we need your input.

The finds table is second to none! Each month the tables are covered with new and interesting finds which are displayed for all to see. It is impressive. This can be overwhelming for new members so please take the time to help them learn how this all works. Make sure they understand that the finds table entries must be on the table before the meeting starts. Please note that in December there will be no finds table to allow more time for the Christmas party.

With 10 club hunts planned for this year and a host of other activities I think this might be the time to say "Thank You" to all of the volunteers who show up every month and keep everything running smoothly. Without their continued support and involvement, this club could be growing in the wrong direction.

Believe me, there is room for more help and more ideas!! We really would like to have others step up and volunteer to get involved. We would like a person to step forward and organize the refreshments for the meetings. Also officers will be voted in at the December meeting, so if you're interested..... please

let someone know. Any way you'd like to help out will be appreciated.

I look forward to seeing everyone at the Christmas party on December 9th.
"Thank you" to everyone involved with the Central Florida Metal Detecting Club and I wish each of you a Merry Christmas and a Happy New Year.

Alan

**A Request: If anyone has a lot of junk jewelry
they want to get rid of - I'll take it! I make
Christmas Trees.**

The people behind "**Storage Wars**" just stumbled upon their most incredible discovery yet -- a real-life pirates' chest that's at least 200 years old ... containing half a million gold doubloons

Dan and **Laura Dotson** came across the stash inside a foreclosed storage locker at an auction in Contra Costa County, CA -- which they sold off to one lucky b***** for just over a grand.

The Dotsons discovered the pirates booty after auctioning off the locker -- a small treasure an expert described as "Pieces of Eight Spanish Gold," dating anywhere between the 16th and 19th century.

According to one source, the coin box was so heavy ... it took 3 people to move it out of storage.

We're told an appraisal expert valued the collection at around \$500,000. Yo ho ho!
