The Monthly Newsletter of The Central Florida Metal Detecting Club

January 2015

From The President's Desk By Alan James

I want to wish everyone at the Central Florida Metal Detecting Club and very Happy New Year for 2015!

Here at the CFMDC, We have old friends, some old habits to break, and a few more aches & pains to deal with but we also have new ideas, new plans and new members which will hopefully help us through another fantastic year.

At the January meeting we will begin the New Year by bringing in your metal detecting finds from December since there was no finds table in December. These finds will be placed on the table the same as at every other meeting. In addition, please bring in those items which captured a "first place" award at any meeting during 2014. These 2014 items will be displayed at a special area and will be voted on to determine the find of the year. Also at the January meeting, we will be awarding trophies for the "2014 Hunter of the Year."

Included on the schedule for this year are several club hunts starting right off with January and the club appreciation hunt. This event is designed to be a fun hunt to show our appreciation to each and every active club member. The actual

hunt is open to CFMDC members only. Prizes will be awarded. The cost to participate in this hunt is \$0.00 (FREE). Along with the hunt, we will have a "picnic" which is open to all member and their families. The club will provide the burgers, hot dogs, & drinks. Feel free to bring along any other food item you'd like to share. We'll have more details at the meeting in January.

During the year, we may ask members to participate in helping to put together one of the monthly hunts. New Year, new members, new ideas. It should be fun.

Some of you know that a couple of weeks ago, the CFMDC was asked to participate in the search for US Navy plane parts at a 1943 crash site in Osteen. This was a limited search and was designed to get a feel for the scope of the search area. This request came from the Deland Naval Air Museum and the land owner. The Navy was in the loop and did provide some limited information but declined to get involved beyond that. HOWEVER....shortly after the hunt was completed, the Navy contacted the museum and asked that we discontinue this search effort so that they could get more deeply involved.

The reason this search was undertaken was to help identify the specific plane which crashed and thereby possibly help to identify a MIA pilot from WWII. Now this is back on hold. To be continued.....

I'll try to have more on this at the next meeting so I guess

I'll see you at the next meeting. - *Alan*
